

TRANSFORMED BY CHRIST
TRANSFORMING HEALTHCARE

His House of Hope, South Sudan

South Sudan is suffering from a health care crisis of unprecedented proportions, and ranks among the worst in the world in several key categories of health.

- One in seven women have a risk of dying in pregnancy or childbirth
- 94% of births take place outside a health facility (typically a mud hut)
- Only 16% of the women receive any antenatal care
- One out of nine children will die before they reach the age of five
- 48% of children under the age of five suffer from general malnutrition

It is in this context that “His House of Hope – Hospital for Women and Children” (HHH) seeks to fulfill its wholistic mission – *“To invite others to follow Jesus as we provide, teach and empower healthcare of women and children in South Sudan”*. The primary clinical goals at HHH are to reduce morbidity and mortality from preventable and treatable disease, and improve pregnancy outcomes by providing antenatal, perinatal and postnatal care.

Since opening in March 2012, the clinical load at HHH has been steadily increasing. As an example of the hospital’s impact, the national and missionary team of HHH provided the following care during 2015:

- 3850 antenatal consultations
- 1636 total deliveries
- 390 Caesarean sections
- 315 life-saving blood transfusions

TRANSFORMED BY CHRIST
TRANSFORMING HEALTHCARE

- 1270 antenatal HIV tests
- 1870 children vaccinated
- 70 pre-term infants
- More than 5000 outpatient consultations
- More than 3200 inpatients, with average of 110% bed occupancy

The Joint Medical Directors, Dr Graham Poole (from Australia) and Dr Jeff Perry (from USA) serve with a dedicated team in challenging conditions, bringing God's love to those in need in South Sudan through the healing ministry of Jesus.

Those with humility, teachability, willingness to serve and a hardy character that can maturely deal with the risk issues have done well.
